

ICT PROJECT MANAGER (job code: 135112)

3 year contract in Papua New Guinea

This is an exciting opportunity for an ICT Project Manager to join our expanding company, Global Technologies, in Papua New Guinea (PNG). This three-year contract is the ideal opportunity to make your mark in a rapidly developing country.

The contract is based in Port Moresby, and comes with an attractive salary that includes accommodation.

Roles and responsibilities

Reporting to the Customer Service Manager, the role of the ICT Project Manager is to plan, organise, and integrate cross-functional information technology projects that are significant in scope and impact.

The ICT Project Manager will coordinate the work of other IT professionals and administrative staff to produce a new piece or system of software. The core elements of the job are about organising people and time resources, and seeing the project through from inception to completion. The Project Managers will have ultimate responsibility for meeting the business's or client's needs.

- Developing project plans, goals, and budgets; identifying resources needed
- Developing schedules and methods for measuring results
- Organising and managing all phases of the project to ensure on-time completion
- Assembling and coordinating project team members; assigning individual responsibilities
- Preparing requests for proposals and conducting all necessary client and internal meetings to facilitate selection of project services and products and deliver progress reports
- Planning and overseeing the preparation and dissemination of project communications.

Work conditions

Most projects will be based in Port Moresby however travel within PNG may be required from time to time.
